Carlos Cañizares Estévez

Senior Full Stack Developer

PROFILE

Full Stack Developer with 20 years of experience designing and building scalable, high-performance web and mobile applications using .NET Core, Node.js, and modern JavaScript frameworks (React, Angular). Strong expertise in AWS & Azure, CI/CD (GitHub Actions, Azure DevOps), and containerized deployments. Passionate about clean code, data-driven architecture, and agile collaboration. In the last year I've adopted IA agents tools to boost my productivity as engineer and improve the quality of what I deliver.

TECHNICAL SKILLS

Languages

C#, JavaScript, TypeScript, SQL

Web / Backend

React, Angular, .NET Core, Node.js, REST APIs, Kafka, ElasticSearch

Mobile

React Native (cross-platform, native fundamentals)

Cloud & DevOps

AWS, Azure, Docker, Terraform, Helm, GitHub Actions, Azure DevOps

Observability

Datadog, Splunk, Kibana, Grafana

Databases

SQL Server, MongoDB, PostgreSQL

Practices

TDD, Clean Architecture, CI/CD

Other Tools

Power Automate, Power BI

PROFESSIONAL EXPERIENCE

Gartner — Senior Full Stack Developer

Barcelona, Spain | 2021 – Present

- Develop and maintain scalable internal tools and services for Gartner's global platforms.
- Design and optimize high-throughput data pipelines and event-driven services using Kafka.
- Integrate third party services to enrich our contents and get meaningful insights that help other teams to moderate contents and analyse the data.

Stack: .NET Core, Node.js (TypeScript), React, AWS (EKS, SNS, SQS), PostgreSQL, Kafka, ElasticSearch

Engloba Tech — Tech Lead / Senior Full Stack Developer

Barcelona, Spain | 2019 – 2021

- Led development of internal products, modernized infrastructure, and improved delivery pipelines.
- Built HGTAG, a React Native mobile app backed by .NET Core microservices hosted on Azure (published on iOS & Android).
- Standardized CD/CI automation and introduced DDD/TDD best practices.
- Delivered Power BI training sessions for external companies.
- Integrated machine learning insights into reporting tools to enhance decision support.

Stack: .NET Core, React Native, React, Azure, Kubernetes, Identity Server, SQL Server

Plain Concepts — Full Stack Azure Developer

Barcelona, Spain | 2018 – 2019

- Delivered multiple client projects, serving as technical lead for planning and reviews.
- Developed React/Angular SPAs and .NET Core APIs, automated deployments via Azure DevOps.
- Supported data visualization and AI-readiness pipelines for analytics teams.

Stack: React, Angular, .NET Core, Azure Functions, SQL Server, Azure DevOps

Haufe Group — Full Stack Developer (Mobility Team)

Barcelona, Spain | 2017 – 2018

- Developed onboarding and mobile solutions using React Native (iOS/Android) and Node.js.
- Managed Kubernetes infrastructure and MongoDB replicas in Azure; implemented CI/CD pipelines.
- Collaborated in a cross-functional senior mobility team to define technical strategy and cloud adoption.

Stack: React Native, Node.js, React, Azure, Kubernetes, MongoDB, CI/CD

2005–2017 Roles — Developer / Technical Lead

Barcelona, Spain | 2005 – 2017

- Led enterprise development teams and built financial/legal sector systems using .NET Framework, WPF/WCF, and SQL Server. (Diagonal Gest / Ancert)
- Contributed to cloud adoption initiatives, early API management, and modernization programs. (Wolters Kluwer)
- Delivered modern web and mobile projects for multiple clients and enterprises, combining consultancy and product ownership roles. (Plain Concepts, Sogeti)

Stack: .NET, Node.js, React, Angular, Azure, Kubernetes, MongoDB, SQL Server, Docker, CI/CD, WCF

EDUCATION

Technical Engineering in Management
(Ingeniería Técnica de Gestión) — UOC,
2006 (Not finished)

CFGS – IT Systems Administration —
Educem, Granollers, 2005

CFGS – Software Development —
Educem, Granollers, 2004

LANGUAGES

Spanish: Native

Catalan: Native

English: Working proficiency (B2 – First Certificate)
