

CARLOS CAÑIZARES

SENIOR SOFTWARE ENGINEER

+34 600 85 37 99
carlos.canizares.work@gmail.com

Full Stack Developer with 20 years of experience designing and building scalable, high-performance web and mobile applications using .NET Core, Node.js (Typescript), and JavaScript frameworks.

Strong expertise in AWS, Azure and GC, CI/CD, and containerized deployments. Passionate about clean code, data-driven architecture, and agile collaboration.

Recently adopting AI agents to boost productivity and enhance quality of what I deliver.

Technical Skills

- **Languages:** C#, JavaScript, TypeScript, SQL, Python (recently adopted)
- **Web/Backend:** React, Angular, .NET Core, Node.js (Typescript), REST APIs, Kafka, ElasticSearch
- **Mobile:** React Native, published to android & iOS markets a couple of apps along career.
- **Cloud & DevOps:** AWS, Azure, GC, Docker, Terraform, Helm, GitHub Actions, Azure DevOps
- **Observability:** Datadog, Splunk, Kibana, Grafana
- **Databases:** SQL Server, MongoDB, PostgreSQL
- **Practices:** TDD, Clean Architecture, CI/CD
- **Other Tools:** Power Automate, Power BI, Open AI Api (mcp tools, agents, conversational api, vector files/rag strategy), Codex, Copilot, Antigravity

Professional Experience

Gartner — Senior Full Stack Developer (Nov 2021 – Dic 2025)

Develop and maintain scalable internal tools and services. Design and optimize high-throughput data pipelines using Kafka. Integrate third-party services to enrich content insights.

Stack: .NET Core, Node.js Typescript, React, AWS, PostgreSQL, Kafka, ElasticSearch

Engloba Tech — Tech Lead / Senior Full Stack Developer (2019 – 2021, Barcelona)

Led development of internal products and modernization initiatives. Built HGTag mobile app with React Native and .NET Core microservices. Standardized CI/CD and introduced DDD/TDD practices. Delivered Power BI training and integrated ML insights into dashboards.

Stack: .NET Core, React Native, React, Azure, Kubernetes, Identity Server, SQL Server

Plain Concepts — Full Stack Azure Developer (2018 – 2019, Barcelona)

Delivered multiple client projects, serving as technical lead. Developed SPA apps and .NET Core APIs; automated deployments.

Stack: React, Angular, .NET Core, Azure Functions, SQL Server, Azure DevOps

Haufe Group — Full Stack Developer (Mobility Team) (2017 – 2018, Barcelona)

Developed onboarding & mobile solutions using React Native and Node.js. Managed Azure Kubernetes and MongoDB infrastructure. Supported cloud adoption strategy.

Stack: React Native, Node.js, React, Azure, Kubernetes, MongoDB, CI/CD

Diagonal Gest / Ancert / Wolters Kluwer / Plain Concepts / Sogeti — Developer / Technical Lead (2005 – 2017)

Led enterprise teams building financial & legal systems (.NET, WPF/WCF). (Diagonal Gest, Ancert)

Contributed to cloud adoption and modernization initiatives. (Wolter Kluwer)

Delivered modern web & mobile projects across consultancy and product teams. (Plain Concepts, Sogeti)

Stack: .NET, Node.js, React, Angular, Azure, Kubernetes, MongoDB, SQL Server, Docker, WCF

Education

Technical Engineering in Management — UOC (2005 –)

CFGS – Software Development — Educem (2002 – 2004)

CFGS – IT Systems Administration — Educem (2004 – 2005)

Languages

Spanish (Native)

Catalan (Native)

English (B2)
